## 35 YEAR LEADER - INSULATION FABRICS

**RELY ON  
INSULATION  
FABRICS FOR  
BEST VALUE,  
LOWEST COST  
AND SAME-DAY  
SHIPPING ON  
IN-STOCK ITEMS**

Insulation Fabrics provides a wide range of Netting (ISF) for Net and Blow loose-fiber and dense-pack installations, Insulation Removal Vacuum Bags, and Reusable and Disposable Protective Suits for all applications in the insulation industry. And now dozens of companies build their brand with extremely affordable custom printing that showcase your quality installations on walls, ceilings and floors.

In-stock netting ensures available inventory when you need shipping to your warehouse or job site, with same day shipping available on orders by noon ET.

For more than 35 years as a Nationwide Leader in commercial fabrics, Insulation Fabrics delivers consistent quality and competitive pricing year after year. Compare our pricing!

**WHAT'S NEW**

**OPTINET55**

100% polyester OptiNet55 insulation fabric offers an affordable alternative to no-stretch, high-performance fabrics.

**DuraMAX**  
REUSABLE COVERALLS

Reduce your daily disposable costs with the washable, extended-wear DuraMAX Reusable Coverall! Durable ripstop nylon front, breathable poly/cotton back with utility pockets and elastic waist, it's the suit that works with you during your day.

**MAXIMUM DUTY  
STEEL GRAY BAGS**

Max-out tough jobs with our new 4' x 6', 75 cu. ft., steel gray maximum duty bags. 100% polypropylene and 3.5 oz. per sq. yd. – our heaviest bags yet – means removal is all your have to think about.

# INSULATION NETTING

## Compare pricing – guaranteed lowest cost!

Speed insulation applications with convenient Insulation Support Fabrics (ISF) for Net & Blow or wet spray insulation on ceilings, knee walls, walls and floor joists prior to covering with sheetrock. Loose-fill insulation is blown into wall cavities to provide high thermal efficiency, improving energy efficiency and sound control.

## Get high-strength performance at a lower cost with OptiNet55

Introducing ‘no stretch’ OptiNet55 for dense-pack applications. 100% polyester, our new OptiNet55 is an affordable alternative to the high-strength ISF 50 polypropylene fabric and is available in ready-cut sizes.

The ISF Series is made from 100% polypropylene, breathable fabric available in three grades: Economy, Builder and Professional with superior tensile strength in job-size rolls for commercial and residential installations.

**NEW!**  
**OPTINET55**  
1.50 oz. sq.yd.

- 100% Polyester
- Point bond, maintains shape during application
- High tensile strength
- No stretch, reinforces insulation batts or dense-pack installations
- Breathable fabric

**ISF 34**  
**ECONOMY**  
1.00 oz. sq.yd.

- Spunbond Polypropylene
- Point bond, maintains shape during application
- Low-basis weight
- Minimal stretch
- Allows air/vapor flow

**ISF 42**  
**BUILDER**  
1.25 oz. sq.yd.

- Spunbond Polypropylene
- Point bond, maintains shape during application
- Lightweight support
- Minimal stretch
- Allows air/vapor flow

**ISF 50**  
**PROFESSIONAL**  
1.33 oz. sq.yd.

- Spunbond Polypropylene
- Flatbond, high strength
- Lightweight, robust support
- No stretch, reinforces insulation installation
- Allows air/vapor flow

Product	Material	Basis Weight	Tensile Strength	Standard Lengths & Widths
<b>ISF 34 Economy</b>	White-100% Polypropylene	1.0 oz. per sq. yd.	Minimum stretch	Widths: 8', 9', 10'; Lengths: 375', 600', 700'
<b>ISF 42 Builder</b>	White-100% Polypropylene	1.25 oz. per sq. yd.	Minimum stretch	Widths: 28", 8', 9', 10'; Lengths: 375', 600', 700'
<b>ISF 50 Professional</b>	White-100% Polypropylene	1.33 oz. per sq. yd..	No stretch	Widths: 28"; Length: 750' Widths: 8', 9', 10'; Length: 375'

## A BRANDING OPPORTUNITY CUSTOM PRINTED FABRICS

**When you're known for quality and service, show your stuff!**

Keep your name out there – from job site delivery through application, showcase your brand wall-to-wall with custom printed Insulation Fabrics insulation netting. Leave a lasting impression of your quality installations for all to see.

**Get started with just 100 rolls per year**  
Extremely affordable – as little as a few dollars per 1,000 square feet.

**Look like the pro you are... order now.**  
Contact the Insulation Fabrics team for order qualifications and manufacturing timelines for delivery to your warehouse or job site. Custom printing orders require a minimum of 100 rolls per year and approximately 90 days lead time.

# INTRODUCING DuraMAX REUSABLE COVERALLS

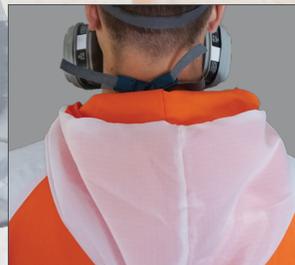

EXTENDED WEAR, WASHABLE, REUSABLE COVERALL

## DuraMAX REUSABLE COVERALLS

When it comes to the next level in durable safety coveralls, Insulation Fabrics now offers **DuraMAX Reusable Coveralls** for extended wear. DuraMAX front is ripstop nylon for better performance and is backed with breathable polyester/cotton fabric – reducing workplace exposure to dust, dirt and fibers from insulation and spray foam application.

- Multi-use coverall that's washable and reusable
- Zipper-front, front and back utility pockets
- Elastic waist for better fit
- Adjustable ankle and wrist straps with thumbholes to keep sleeves in place
- Front: Durable ripstop nylon for longer wear; back is breathable polyester/cotton blend
- Four (4) sizes available, 10 suits per box

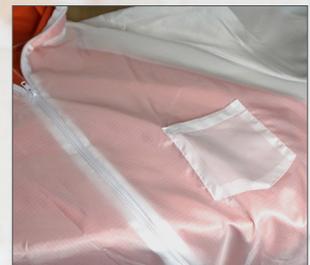

Fully lined hood for additional head protection.

Better fit with elastic waist, utility pockets front and back

Adjustable velcro wrist straps with elastic thumbhole.

Ripstop nylon front with zipper and utility pocket.
